

ASSEMBLY INSTRUCTIONS: MANCHESTER FACEPLATE & STANDARD MASONRY BOX

Figure 1*

Figure 2

Figure 3

Figure 4*

Assembly Instructions:

1. Line up the hinges on the faceplate with the notches on the masonry box and insert the faceplate into the box (Figure 1*).
2. Open the faceplate door and insert the mounting bolts through the holes in the faceplate and into the threaded inserts on the masonry box. There are 2 bolts/holes; one on each side (Figure 2).
3. Tighten both bolts with a screwdriver (Figure 3).
4. Apply a thin bead of silicone to the outside seam where the masonry box meets the rear of the faceplate. This bead of silicone should only be applied to the top and two side seams of the assembly. Do not apply to the bottom seam (Figure 4*).
5. Let the silicone harden overnight before installing the assembly into your column or pilaster.

* Security Option: In figures 1 and 4, the box used to attach the faceplate to a locking chute will be steel and will look different from what is shown.

Match your Manchester® with an optional address plaque or newspaper box.
